

Early Education Funding and Compliance

Introduction

The early years landscape regularly shifts with providers having to adsorb and action due to new initiatives, changes in the early years entitlements and updated government guidance.

Early years providers may find themselves engaging in funding for the first time, or reviewing the way that they offer early years funding entitlements. This workshop will help you review how you plan for and provide funded places in a way that is compliant, in line with the government's current statutory guidance and minimise the risk of challenge from parents accessing funding entitlements.

This session is suitable for any provider wanting to set up a funding delivery for the first time, but also those who undertake reviews of their EEF models.

Learning Outcomes

By the end of the training, you will be able to:

- Offer your Early Education Funding model in line with current statutory guidance whilst supporting your sustainability.
- Develop and implement robust systems and documentation for offering the early years entitlements.
- Communicate your funding offer with parents and carers.
